Free 3 Days IBM Cognos Analytics 11.1 Upgrade Assessment

Gain the insight for better performance & security of IBM Cognos environment

How it Works

A series of engagements are conducted to determine performance issues & anomalies in the areas of Validation, Optimization and Security.

Validation	Optimization	Security
✔ Discover broken reports, views and shortcuts	✔ Review the use of embedded SQL	✔ Identify content with explicit security
✔ Validate jobs and job step targets	✔ Compare multi-dispatcher administration settings for consistency & correctness	✔ Review accounts with direct access to content.
✔ Examine report & schedule ownership	✔ Review stored output size, age and retentions	✔ Examine email recipients and attachments
✔ Verify report package linkage	✔ Compare Dev to Prod for inconsistencies	✔ Audit IBM licensing and user capabilities
✔ Validate datasources and sign-ons		

Cognos
Assessment Report

Upon completion of the upgrade assessment, we will provide actionable next steps and recommendations for optimizing your IBM Cognos environment!
